

## 2016 Quality and Productivity Research Conference Call for Papers

**You are invited to submit a contributed paper for the Quality and Productivity Research Conference to be held June 14-16, 2016 in Tempe, Arizona.**

The theme of this year's conference is *Integrating Quality and Statistics: A Transformative Alliance*. The goal of the conference is to stimulate interdisciplinary research among statisticians, scientists, and engineers in quality and productivity, industrial needs, and the physical and engineering sciences. Statistical issues and research approaches drawn from collaborative research will be highlighted.

A short course on *Assessing Model Uncertainty in Applied Bayesian Data Analysis* by William Guthrie, Chief of the NIST Statistical Engineering Division, will be offered on June 13, 2016.

For further information on the conference, including the program, registration, student scholarships, and hotel information, please visit the conference website at <http://qprc2016.com>. Registration for the conference and the short course are now open. Register early, on or before May 15, 2016, and receive a substantial discount.

**To submit a contributed paper to the 2016 QPRC, please provide the title, authors, and a brief abstract to Professor Steven Rigdon at [srigdon@slu.edu](mailto:srigdon@slu.edu).**

**The deadline for submitting a contributed paper is May 1, 2016, but please submit your paper as early as possible for maximum consideration.**
